Mobile Screening Unit Requirements

- 1.) Full-size pick-up or equivalent with a tow-all package capable of towing the trailer (7-prong RV-type plug or adapter and a 2 5/16-inch hitch ball).
- 2.) Indoor space large enough to properly set up equipment (minimum 40 ft. by 40 ft., see attached drawing).
- 3.) Team of volunteers trained to use the equipment.
- 4.) A licensed professional (optometrist or ophthalmologist) on site during screening.

Restrictions on Use

- 1.) The mobile screening unit must not be used to screen children.
- 2.) The unit is intended for use in Lions Districts 2-S1, 2-S2, 2-S4 and 2-A3. The unit may be used outside of those four districts if accompanied by a team of Lions volunteers from one of the districts, but may not be carried across the border for use outside of the United States.
- 3.) At no time should any equipment be removed from the unit for use at non-authorized screenings or for display purposes.
